A wireframe of a login/sign-up form. It features a rectangular box with a dashed border. Inside, at the top, is a button labeled "SIGN UP". Below this, there is a line of text "Already have account?" followed by a "Login" link.

5) Forgot Password - Step 1

Purpose: Start password reset using email.

Rules:

- User must enter the email linked to the account.
- Send OTP to that email.
- One email only.
- No username or mobile number here.
- Submit continues to OTP verification.

A wireframe of the "Forgot Password" form. It is a rectangular box with a dashed border. The title "FORGOT PASSWORD" is at the top. Below it is a text input field with the placeholder "Enter your email". At the bottom is a "SUBMIT" button.

6) Forgot Password - Step 2

Purpose: OTP verification screen.

Rules:

- Show only one OTP field.
- OTP should be time-limited.
- User must enter the code received on email.
- Resend OTP option can be shown.
- Do not allow password change before OTP verification.

VERIFY OTP

We sent a code to your email address.

Enter OTP Code

Resend OTP

SUBMIT

7) Forgot Password - Step 3

Purpose: Reset password after OTP verification.

Rules:

- Show new password and confirm password.
- Both values must match.
- Password must follow app rules.
- Submit only after valid entry.
- No other profile fields here.

RESET PASSWORD

13) Group Chat Screen

Purpose: Multi-user conversation.

Rules:

- All group members can read and send messages.
- Attach button opens media and poll options.
- Group header should show group name and member icon.
- Messages are visible only to members of the group.

14) Channel View - Buyer

Purpose: Read-only channel feed for buyers.

Rules:

- Buyer can only view channel posts.
- Buyer cannot post in the channel.
- Buyer can wishlist products.
- Buyer can open product details.
- Show only content from channel owner.

15) Channel View - Seller/Admin

Purpose: Channel owner posting and managing updates.

Rules:

- Only channel owner sees the post composer.
- Only owner can create product posts.
- Repost button is visible only to the owner.
- Channel followers cannot post.

16) Create Product Post

Purpose: Seller creates a product-style post for the channel.

Rules:

- Product image is required.
- Product name is required.
- Description is required.
- Price is required.
- Custom detail fields can be added.
- Keep the form simple and focused.

34) Bottom Navigation

Purpose: Main app navigation.

Rules:

- Keep only core sections here.
- Do not clutter with wishlist or bids.
- Use icons plus labels.
- Each item should be easy to understand.

35) Recommended App Flow

Purpose: Shows the full user journey.

Rules:

- Follow this sequence in development.
- Do not build random screens first.
- Keep onboarding before dashboard.
- Keep bidding after wishlist/product discovery.

Review & Rating

36) Core Rule Summary

Purpose: One-line system rules for the whole app.

Rules:

- Seller creates channels and posts products.
- Buyer joins channels and creates bids.
- Only channel owner can post in channel.
- Only invited sellers can see selected bids.
- Rejected sellers cannot offer.
- Buyers can wishlist products and compare sellers.
- Completed orders unlock private order chat and review.

Seller:

- Can create channel
- Can post products
- Can repost own product
- Can join or reject bid
- Can make offer if joined

Buyer:

- Can join channels
- Can chat
- Can create groups
- Can wishlist products
- Can create bids
- Can compare offers
- Can select seller
- Can review seller

Channel Owner:

- Only owner can post in channel
- Only owner sees repost button
- Followers can only view and wishlist

37) Best Design Principle

Purpose: Keep the app practical and shippable.

Rules:

- Search at the top.
- Main activity in the middle.
- Bottom navigation for primary sections only.
- Use cards for chats, groups, channels, products, and bids.
- Use one clear action per screen.
- Keep buyer and seller permissions strict.
- Do not overload screens with unnecessary fields.
- Build for clarity, not decoration.

Keep the app simple:

- Search at the top
- Main activity in the middle
- Bottom navigation for primary sections
- Use cards for chats, groups, channels, products, and bids
- Use one clear action per screen
- Keep buyer and seller permissions strict
